The Stroke Summer School is evaluated with 4 ECST points.

During the Stroke Summer School you are cordially invited to participate in exciting social activities.

Primary objective of the course is to encourage cooperation and to promote exchange of knowledge between participants from different countries. The course is a meeting of respected scientists that work with stroke presenting and discussing all major aspects of stroke risk factors, as well as new insights in epidemiology, prevention, diagnosis, treatment and rehabilitation of stroke. Probably the major feature of the course is enabling exchange of experience among experts and comparison of stroke data from various countries. Also, the course allows knowledge transfer between respected scientists from western countries and colleagues from central and east European countries working with stroke. Participants are kindly asked to arrange their travel to and accommodation in Dubrovnik. Our local organizers in Dubrovnik will be happy to help you.

Directors of the course:

Prof. Dr. Vida Demarin, University of Zagreb, Croatia
